GTM Engineer | Forward Deployed Engineer | AI Solutions & Integrations

PROFESSIONAL SUMMARY

GTM and Forward Deployed Engineer who builds and ships production AI systems that revenue teams actually use. Architected a 12 agent GTM automation system and a custom MCP server with evals and monitoring. Rare edge for a technical hire: a proven quota carrier with 150%+ of target as an AE, $1.5M+ closed at Oracle, and $4M+ in net-new revenue from AI work at IBM. Fluent in Python, SQL, APIs, and cloud, and just as comfortable with the C-suite.

CORE COMPETENCIES

Agentic AI & MCP Servers | LLM Evals & Monitoring | REST & GraphQL APIs | Webhooks | Python & SQL | Data Pipelines & ETL | AWS & GCP | Kubernetes | Clay Enrichment Waterfalls | Lead Scoring & Routing | CRM Architecture (Salesforce, HubSpot) | Workato, Make & n8n | Customer-Facing Technical Deployment

PROFESSIONAL EXPERIENCE

ENTECH, Fort Lauderdale, FL May 2026 – Present
GTM Engineer & Account Executive

- Architected a 12 agent GTM automation system on Claude Enterprise, orchestrating Clay, Apollo, HubSpot, and Google Workspace to automate prospecting, enrichment, scoring, and outreach, saving each rep 12 hours a week.
- Built and deployed a custom MCP server exposing HubSpot, Apollo, Clay, and internal APIs to agents through REST, GraphQL, and webhooks, with evals on output quality plus monitoring and alerting on every agent run.
- Engineered Clay enrichment waterfalls, AI columns, and Python and SQL data pipelines that enrich and score 3,000+ contacts per month, sourcing $1M+ in annualized pipeline and driving 40%+ more booked meetings.
- Lead a team of 2 AEs and 3 SDRs reporting to the CRO; trained the team and client organizations across legal, healthcare, construction, municipal, and financial services on agentic AI workflows.
- Carry a quota while running the system end to end: 150%+ of target every month since ramp, peak month 200%+.

IBM, New York, NY May 2023 – April 2026
Business Transformation Consultant

- Led 10+ AI transformation initiatives generating $4M+ in net-new revenue, owning delivery from executive discovery and solution design through deployment and value realization.
- Built Python data pipelines and API integrations deploying client AI on AWS and GCP, with Kubernetes in production.
- Deployed AI-enabled workflows for healthcare systems and IDNs, including PACS medical imaging environments, cutting manual processes 30% across clinical operations and compliance.
- Led a Salesforce redesign for an enterprise client, rebuilding data model, Flow automations, and reporting.
- Ran executive AI workshops in London, India, and Mexico; led teams of 4 to 5 and mentored junior analysts.

ORACLE, Burlington, MA June 2021 – April 2023
Account Manager

- Closed $1.5M+ in cloud deals and exceeded quarterly targets (100% / 125% / 160%) across a 4,000+ account pipeline.
- Automated lead qualification and reporting with SQL and Salesforce workflows, cutting manual tracking 15%.
- Ran technical discovery with IT and business leaders, scoping OCI solutions that improved adoption and retention.

EDUCATION

BOSTON UNIVERSITY, Questrom School of Business, Boston, MA May 2021
Bachelor of Business Administration, Concentration in Management Information Systems | Capstone Award Winner

TECHNICAL SKILLS & CERTIFICATIONS

AI & Agents: Claude Enterprise, Claude Code, MCP servers, multi-agent orchestration, LLM evals, prompt engineering, Cursor
Engineering & Data: Python, SQL, Node.js, REST/GraphQL, AWS, GCP, Kubernetes, Snowflake, BigQuery, Looker
GTM Stack: Clay, Apollo, ZoomInfo, Salesforce Flow, HubSpot Workflows, Workato, Make, n8n, Zapier, Sales Navigator
Certifications: Professional Scrum Master | Oracle Cloud Infrastructure Foundations | IBM Agile Explorer
Languages: Russian (fluent), Ukrainian (conversational), Spanish (conversational)
